	Size			QTY	SOLD	AVAILABLE	Price each		
Prairie Cascade Willow	6'			5		5	\$79.95		
BARE ROOT PLANTS MUST BE PICKED UP BETWEEN APRIL 14 AND MAY 14. The earlier the better!									
We will pack plants to make sure they transport safely. Plant as soon as possible.									
Sizes and Grades for Bare Root plants:									
***All Bare Root trees will be about 6 - 8' tall. (7/8" = trunk diameter at 6" above root flare.)									
***Mature size depends a lot upon fertility and tilth of your soil. In sandy soils expect slower growth and size at maturity than in clay soils.									
Std = Standard rootstock. Tree will grow to about 20-25 tall and wide.									
SM-7 = Semi-dwarf rootstock. Tree will grow to about 15-20' tall and wide.									
Plums will grow to about 12-18'									
Pears will grow to about 20-25'									
About Zone hardiness:									
Not all Standard trees will be Zone 3 hardy, even though rootstock may be.									
Zone 3 is generally north of MN State Highway 95, but protected locations north of 95 may be zone 4 and open areas south of 95 may be zone 3.									
Some small fruits are bare root, but most will be in containers.									
Sales tax not included in price.
